Welcome to the Sharepoint site for the U&O FIP Workgroup. If you go to Site Contents, or on the left hand side, you should see various folders (document libraries) for the rulemaking. Please refer to the Standards Practices for UO FIP Workgroup document on the Home page for details on the structure of this site. Thus far I have posted the current detailed to do list, the simplified schedule for management briefings, current UT oil and gas air rules, and various reference documents from other past or ongoing O&G FIPs. After reviewing this preliminary site, if you have any ideas or issues regarding the current structure or would like to see certain other reference documents posted to assist with this rulemaking, please contact me or post them yourself in the Reference Documents folder.

You should all have appropriate access to edit and upload documents to any of the document libraries on this site. Please let me know if you have any issues.
